@the Grounds Letter

Welcome to the 2020 Placer County Fair @the Grounds.

For the 83rd Annual Placer County Fair, we couldn't think of a better theme than "The Sky's the Limit." Considering the tremendous growth here @the Grounds, accentuated by the introduction of the state-of-the-art Placer Valley Event Center, this theme truly highlights all of the amazing things we have planned for this year's fair.

We warmly welcome back popular attractions, such as All-Alaskan Pig Racing and the Miss Placer County Scholarship Pageants who will crown their Royal Court Thursday evening. New this year will be a three-day cornhole competition and a community rib cook-off on Sunday.

Traditions are important to us. Hop onto a ride at the carnival or stroll through our livestock exhibits and you'll truly understand our respect for the history which serves as the foundation for the Placer County Fair.

Most importantly, the Placer County Fair would not be successful without community involvement and participation. Can you cook better than Rachel Ray? Set a table better than Martha Stewart? From goat costumes to home brews to Lego creations, we want your talents on display!

Whether you are a fair veteran or this is your first time getting involved, we look forward to all the great entries that showcase our amazing county.

Thank you for joining us in celebrating The Sky's the Limit June 25-28

CA Department of Food and Agriculture Letter

December 16, 2019

We can take pride in the fact that California fairs are world leaders in providing educational and competitive exhibits that showcase local communities and their talents, as well as providing a venue for all cultures and lifestyles to promote diversity within the community.

California fairs encourage their communities to learn more about the bounty of California agriculture. They foster the reconnection of consumers to the land and to the people who produce their food.

Fairs are a tradition for families and communities to come together to create lasting memories. However, our fairgrounds are much more than just a place to celebrate. We cannot overlook the events that take place at our fairgrounds throughout the year; from crab feeds to weddings and, as needed during emergency situations, fire camps and evacuation centers.

As we look ahead to the year 2020, I would like to express my appreciation for all fairground's staff, volunteers, and others who share a commitment to serve their local communities. Thank you all very much. Your support of California fairgrounds is invaluable.

Yours truly,

A handwritten signature in blue ink that reads "Karen Ross".

Karen Ross
Secretary

OFFICE OF THE GOVERNOR

California Agriculture Fair Season

On behalf of the State of California, it is my pleasure to welcome you to the 2020 fair season.

When we talk about building a California For All, our network of fairs provides an excellent example. Fairs serve communities throughout our great state, and they showcase the breadth of our diversity, inclusivity and innovation.

California's fairs introduce our children to a wondrous agricultural bounty - a point of pride for the Golden State. The livestock competitions, educational exhibits, exhilarating carnival rides, live performances, entertainment, and offerings from local vendors featured at our fairs highlight California's cultural heritage.

As exhibitors, the fair provides you with the opportunity to showcase your hard work and commitment. Through your exhibits, the community learns more about California and its agriculture and values.

Thank you for your support, participation, and for playing a vital role in California's agricultural community.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gavin Newsom".

SWINE:

- Market Ready – Hogs of average or greater conformation that are acceptable in leanness, muscularity and production traits.
- Non-Market Ready – Any Hog of below average conformation.

SHEEP:

- Market Ready – USDA Prime or Choice quality with 12th rib back fat range of .16 to .35, average or grader conformation and cutability.
